

# UGANDA: THE PEARL OF AFRICA

A Tropical Birding Custom Birding with a Camera Tour

July 9-28, 2023

Guides: Ken Behrens & Prossy Nanyombi

### **TOUR SUMMARY**

This was a custom BwC tour designed to give chances to photograph as many bird species as possible, on a route similar to the typical Tropical Birding set-departure tour. We succeeded in achieving this goal, photographing well over 400 of the 529 total species that we recorded, including hear-only birds. The photos obtained varied from fairly good to excellent, but all of these 400+ were better than mere "record shots". Of course, one of these hundreds of photographed birds was Uganda's top avian draw card, the one-of-a-kind Shoebill. But there were so many other photographic highlights, including African Finfoot, Heuglin's Spurfowl, Abyssinian Ground-Hornbill, Grauer's Broadbill, and Jameson's Antpecker, to name just a few. The mammal watching and photography were also excellent, headlined of course by the great apes: Mountain Gorilla and Chimpanzee. But there was also a range of other primates, and typical "safari fare" such as

African Elephant, Giraffe, and African Buffalo. Uganda is a wonderful trip for birding, and equally impressive for a "Birding with a Camera" trip, with a bounty of approachable birds and a wide variety of habitats.
